

CANCER ADVOCATE – Cancer Guardian

Why you should enroll now.

Through affordable payroll deductions, enrollment in Cancer Guardian can help you prevent and fight cancer more effectively.

The Cancer Guardian program includes these valuable benefits and features:

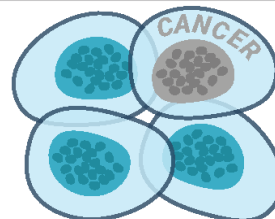

Advanced DNA Testing

1 Hereditary Genetic Screening Test

This testing gives you insight into your genetic risk for cancer or heart conditions.

Enrollees receive access to genetic screening services upon the effective date of the program.

- 2 If an enrollee is diagnosed with cancer, we provide access to **Advanced DNA Testing of the Cancer**, which can help your doctor identify the most effective treatment options.

Cancer Support Specialists

- 1 The Cancer Information Line is available to all enrollees and their immediate family members (including parents) at anytime.
- 2 If an enrollee is diagnosed with cancer, we assign a dedicated Cancer Support Specialist (CSS) to support them through their cancer journey.

Additionally, Cancer Guardian Provides:

- A Customized Information & Resource Pack
- Second Opinion Pathology Review
- On-Site Nurse Navigator

Medical Records Platform

This technology gives enrollees and their family members access to a secure, cloud-based solution for storing and transmitting medical records for any condition, at any time.

These services are not typically made available or covered by health insurance.

CANCER ADVOCATE – Cancer Guardian

Wamberg Genomic Advisors is collaborating with the American Cancer Society.

The American Cancer Society does not endorse any product or service.
